FEATURE HIGHLIGHTS

Grip It and Rip It

Now standard: Smart-Lok is the most advanced off-road front differential, period. It's fully lockable on-the-fly, and its four automatic modes return maximum traction in every condition.

Shocking Versatility

The Can-Am Maverick is tuned to win, leading its class thanks to features like bottom-out control with dual speed compression. Its adjustable FOX Racing† piggyback shocks can hit off-road terrain at heart-pounding speeds—and come out on top.

High-Performance Wheels and Tires

The Can-Am Maverick gets its imposing look in part from 30 inch Maxxis Carnivore† tires with 14 inch cast-aluminum wheels. It's a beastly tire setup that's ready to roam far and wide right out of the showroom.

Stands Out & Stands Tall

Who says size doesn't matter? At 14 inches high, the Can-Am Maverick looks down on anything in its way. That amount of ground clearance means it can easily absorb shocks and avoid damage to the chassis and underbody from scraping.

Trip Info at Your Fingertips

For riders, everything worth paying attention to is on the Can-Am Maverick's 4.5 inch digital display. At that size, it's readable in all conditions and puts all the vehicle's information and controls at the tip of the driver's gloves.

FEATURE HIGHLIGHTS

Leading the Charge

One word to describe the 200 horsepower Rotax Turbo RR engine: relentless. How much horsepower should the world's leading sport side-by-side have? We say more. The newly-boosted output delivers faster acceleration and more get-up-and-go in every driving situation.

Grip It and Rip It

Smart-Lok is the most advanced off-road front differential, period. It's fully lockable on-the-fly, and its four automatic modes return maximum traction in every condition.

Lightning Fast Suspension Response

Before Smart-Shox, customers had to choose between race-winning handling and a comfortable, all-day ride. Not anymore. Smart-Shox self-adjusts up to 200 times per second, boasting near-instantaneous response to rider inputs and terrain. It's the industry's fastest suspension response. Period.

Shocking Versatility

The Can-Am Maverick X rs is tuned to win. Equipped with Smart-Shox and trophy truck-inspired arm suspension, this ride can hit any terrain at top speeds—and come out on top.

High-Performance Wheels and Tires

The Can-Am Maverick X rs gets its imposing look in part from 32 inch Maxxis Carnivore tires with 14 inch cast-aluminum beadlock wheels. It's a beastly tire setup that's ready to roam far and wide right out of the showroom.

Harness Every Adventure

With 4-point harnesses awaiting every passenger, a fun and safe ride is only a few clicks away. Standard shoulder pads and Ergo-Lok seats add to rider comfort and safety.

Trip Info at Your Fingertips

Everything needed to control the perfect ride is on the Can-Am Maverick X rs's 7.6 (19.3cm) inch dash-mounted digital display with keypad. At that size, it's readable in all conditions and puts all the vehicle's information and controls at the ready.

Riding After Dark

Safe riding at night is here. Can-Am LED headlights and tail lights with high and low beams shine brighter, consume less power, and last longer than standard halogen bulbs. Plus, the rig looks plain cool with its headlights lighting up the night.
